

Nikon Coolpix S9050, 12.1 megapixel camera, new

\$100

Has a 3" screen

12.1 megapixel

Takes 1080 HD video with stereo sound

The COOLPIX S9050 combines an impressive 15.5x wide-angle optical Zoom-NIKKOR glass lens and a 12.1-megapixel CMOS sensor for great photos and videos--even in low light. With extensive filter options and special effects, your images can take on a new creative look. Capture a fleeting moment with fast framing rates and Full HD (1080p) movie recording. Weighing in at just 7.6 ounces, you'll take the S9050 everywhere.

Magellan RoadMate 9250T-LMB GPS with 7-inch screen

In new condition

\$125

(Retails for \$230)

* Has a 7" High-Definition Touchscreen Display: Extra-large, vibrant, display with day and night views for easy visibility. Perfect for all cars, RVs, SUVs and trucks.

* Landmark Guidance: Receive directions using 10 categories of landmarks as your guide, making it a more intuitive way to navigate. You'll hear instructions like "In 200 feet, turn left at the Shell Gas Station".

* The Bluetooth connection turns your GPS device into a hands-free speaker phone

You also get premium features such as Free Lifetime Map Updates, and Free Lifetime Traffic Alerts

Magellan Wireless Back-up Camera: As you reverse, your Magellan navigator will automatically switch into rear-view mode allowing you to see what is behind your car. (camera sold separately)

* The upgraded Junction View feature provides you with realistic images of freeway signs and arrows to guide you to the correct lane, making driving easier, safer and less stressful.

* Traffic Camera Alerts, provided by PhantomALERT, help to avoid traffic tickets by providing audible and visual warnings that alert you to fixed red lights and speed cameras along your route.

* Magellan's Bluetooth SafeTexting has taken advantage of a capability found in many feature phones (sometimes referred to as "flip-phones") which allows texting control over a Bluetooth connection. This allows a Magellan feature known as SafeTexting which gives the driver the ability to respond to an incoming call or text with a pre-written text message informing the caller that the driver will call back when it is safe. The return texts, which are sent in a couple of button presses, may include location and ETA information automatically inserted by the GPS device!

* Best Parking is a great feature that makes parking in the city much easier. Best Parking provides parking garage locations with both their hours of operation and the location of their entrance. With a touch, choose a garage that is close to your destination and you are guided directly to the entrance.

* And what happens if you break down out on the road? On the special "Where am I?" screen you'll have your present location given for the tow truck driver, the AAA phone number, and your pre-entered AAA membership number. You'll have the necessary information when you need it most.

REI Rainspout Rain Pants - Toddler Boys'

Green, 12 mos. (they run big)

\$6

Brand new, still have tags on (normally \$24.50, still has tags on)

- Sturdy, lightweight nylon sports a Durable Water Repellent coating; seams are sealed to block out rain and wind
- Elastic waist with drawcord adjusts easily for a secure fit
- Adjustable rip-and-stick cuff tabs help seal out the rain
- Reflective accents enhance visibility in low light

Patagonia Down VEST

Blue, size 12 mos., though our son wore it until he was 18 months

\$20

- Ripstop polyester shell is tear resistant and windproof; water-repellent finish causes snow and rain to bead up and roll off
- Premium European 600-fill-power[?] goose down insulation is extremely warm, lightweight and compressible
- Baby Down vest has a full-zip front, windflap, zippered hand pockets with reflective zipper pulls and an ID label inside

(Retails for \$69)

NOTE: We have the VEST for sale, but could only find a photo of the jacket online- it's this exact color, but in a vest.

Patagonia Baby Synchronilla Cardigan Sweater - Infant/Toddler Girls'

Darker pink than shown in the photo, size 12 months

Used, but still in decent shape

\$15

- Velvety soft, 85% recycled Synchronilla® fleece fabric on solid garments is quick drying and easy to wash; plus, it scrunches into a backpack with ease
- Printed garments are made from standard polyester

- Flat seams help eliminate chafing
- Hood and cuffs feature elastic binding to help seal out chilly drafts
- Full front zipper facilitates easy on/off a squirming baby; internal windflap protects against drafts
- Patagonia Synchronilla cardigan sweater is generously sized for easy layering

(\$55 new)

REI Sahara Roll-Up Pants - Toddler

\$12 each

Size: 12 months, although they run a little big

Available in tan and also light gray (aka wildwheat and titanium)

These are girl's pants, but you would never know; they fit our son perfectly!

- Abrasion-resistant nylon fabric is lightweight and dries fast for worry-free, all-day comfort
- Snap tabs at knees convert REI Roll-Up pants to capris with 8 in. inseam; articulated knees follow natural movement
- Fabric provides UPF 30 sun protection, shielding skin from harmful ultraviolet rays
- Half elastic waistband for added comfort
- Hand pockets, 2 rear pockets, and 2 cargo pockets with rip-and-stick closures

(normally \$34.50)

Izon 2.0 wi-fi video baby / home security monitor (NEW in box)

Use the Izon video monitor as a baby monitor, for home security, to check on pets, and so on.

With a free app, you can stream the video to your startphone or tablet, so you can keep tabs on your home (or child) from anywhere! (Currently, there is about a 20 second latency for video in the app.)

Easy setup: Download and install the free Stem:connect iOS app on your iPhone, iPod Touch, and/or iPad. Then connect your iOS device to the iZon "stem" Wi-fi network to configure the camera.

Black Diamond Ultra-Distance Z-Pole hiking poles

Translation: high-end carbon fiber, foldable hiking poles that are super lightweight (9 oz. per pair)

Size: 120 cm: 5 ft. 8 in. - 5 ft. 11 in.

- Innovative folding Z-Pole system offers simple, compact and reliable support with a concealed inner cord, single push-button release and speed cone deployment
- A quick pull on the grip, and the first pole section snaps and locks the 3 pole sections into place; flexible tube ends protect the Kevlar® center cord when folded
- Easily replace and solidly secure pole tips with WaveLock™ tip connections
- Right- and left-hand-specific straps are light, breathable and moisture-wicking; they feature breathable cutout windows and easy rip-and-stick[?] adjustability
- Inspired by snow probes, speed cones at the end of each pole section ensure strength, stability and super-fast deployment; each speed cone guides a pole section into place
- Light, non-slip EVA foam grips feature foam extensions that allow poles to be held low during short side hill traverses
- 100% carbon fiber shafts offer ultra-light performance
- Pole baskets feature shaft catchers to secure pole sections when folded; note: baskets are fixed in place and cannot be switched out for snow or powder baskets
- Black Diamond Ultra Distance Z-Pole trekking poles come with interchangeable, nonmarking rubber tips, carbide tips and a stow bag

The Bicycle Rearview Camera (new in box)

This camera system mounts to a bicycle for providing a clear view of the road behind.

The 2 1/4" W x 1 1/2" H camera mounts to a bicycle's seat post, provides a rear-facing 75° field of view ideal for seeing approaching vehicles or other cyclists. A 78 3/4" zip-tied cable that accommodates any frame geometry connects the camera to the handlebar-mounted 3 1/2" TFT color monitor (fits bars up to 1 1/4" diameter); quick-release mechanism removes the monitor easily from handlebars for charging.

A circular pattern of red LEDs flash when the camera's built-in sensor detects low-light conditions for visibility to traffic. Fully weather- and vibration-resistant. The camera system's rechargeable battery provides up to 10 hours of operation from a two-hour charge using the included AC adapter. (1 lb.)

Arc'teryx Gor-tex waterproof jacket -- women's, size large (NEW)

The women's Arc'teryx Scimitar jacket features a lightweight, soft Gore-Tex® Pro Shell textile.

- Rugged Gore-Tex® 3L Pro Shell fabric is tough, extremely breathable and durably waterproof and windproof
- Reduced quantity and thickness of seams saves weight, provides excellent abrasion- and snag-resistance and enhances breathability
- Helmet-compatible Storm Hood™ and generous collar protect you in inclement weather without sacrificing your peripheral vision
- Front zipper prevents windchill and snow entry; quick-drying chin guard protects soft skin from zipper abrasion
- Stretch panel powder skirt with snap closure keeps out cold air and snow; slide-and-lock snaps attach jacket to compatible pants (sold separately)
- Articulated elbows, roomy underarm gussets and forward-leaning articulation ensure easy movement
- Pit zippers allow easy and efficient ventilation; WaterTight™ zippers do away with bulky zipper flaps
- Handwarmer pockets and sleeve pocket all have waterproof zippers
- Arc'teryx Scimitar jacket also features 2 internal laminated pockets
- Embedded RECCO® reflector enhances radio signals from search-and-rescue RECCO detectors to speed location acquisition in an avalanche

Black Diamond Women's-specific Spark Daypack (NEW)

Designed with a women-specific ergoActiv suspension system and free-floating shoulder straps that dutifully adjust to your every movement

- Women-specific shoulder straps and hip-belt feature soft, breathable 3D mesh padding for ultimate comfort
- ErgoActiv suspension system features an innovative free-floating hip-belt that pivots with your body's movements for improved load stability and comfort when traveling over uneven terrain
- Swing Arm tech routes the shoulder straps through the pack's lumbar area for unrestricted movement when hiking with trekking poles or scrambling
- OpenAir back-panel system and 3D mesh straps allow fresh air to circulate between the pack and your shoulders and back to keep you feeling comfortable when the midday sun is cranking
- Panel-loading design allows easy access to the inside
- Stash pocket on the hip-belt is perfect for storing extra calories, and a front pocket keeps your trail map, headlamp, and other on-demand essentials organized
- Stow trekking poles or ice axes on outer loops
- Slip your water reservoir into the inner sleeve for hands-free, on-the-go beverage-ing (reservoir not included)
